ADVANCE

Early Stage Innovation Assistance Program

Program Objective

In Northwestern Ontario, many small and medium size enterprises have difficulty accessing the appropriate expertise and resources to move their idea to the marketplace.

The intent of this program is to provide technical assistance and support services to assist in the successful launch and growth of their early stage innovation. This assistance would include, but not be limited to, the following services:

1. Access to engineering design and design-for-manufacture resources
2. Collaboration for prototype development
3. Technical feasibility analysis
4. Productivity enhancement analysis
5. Marketing research and market development support

Small- and medium-sized Enterprises (SMEs) can receive up to \$5,000.00 in assistance towards the developmental costs of their idea through the ADVANCE – Early Stage Innovation Initiative Program.

Eligibility

The client must be a Canadian firm (<100 employees, incorporated or in the process of incorporating), seeking assistance in the development of new products, processes or services, or in the adoption of technology, which has the potential to help increase sales, employment or productivity. This program is not intended to support, nor is applicable to, retailers or resellers.

Administration Fee

Application processing and other related service provided by the Northwestern Ontario Innovation Center requires an administration fee of \$400.00 + GST payable by the applicant at the time of approval.

Project Completion Deadline

All projects must be complete no later than February 28th, 2010.

This program is supported by the **National Research Council Canada Industrial Research Assistance Program (NRC-IRAP).**

 National Research Council Canada  Conseil national de recherches Canada
