| REGIONAL SERVICE DELIVERY | 1 Initiate a review of northern service delivery to enhance planning, service delivery, and administrative effectiveness in incorporated and unincorporated areas: | | | | | | |
| | a) Establish and work with a review team (with representation from /northern municipalities, unincorporated areas, Aboriginal communities, and service delivery organizations) to examine service delivery mechanisms in the North and other jurisdictions; identify potential options and guiding principles; and prepare a plan for gaining broad northern input on proposed options. | | | | | | |
| | b) Map the existing administration and delivery of public services (e.g., transportation systems, water supply and distribution, waste management, fire protection, emergency services, social services) in Northern Ontario. | | | | | | |
