

Dear Colleague,

The North Superior Workforce Planning Board is pleased to release the: **District of Thunder Bay Labour Market Inventory 2009**. This report focuses on six main industry sectors within the Thunder Bay District: Mining, Forestry, Construction, Manufacturing, Transportation, and Knowledge-Based. Commissioned by the North Superior Workforce Planning Board, it offers a more detailed understanding of current labour market challenges and opportunities, based on the input from both employers in these sectors as well as workers seeking employment opportunities.

The report is intended to:

- Assist with business attraction strategies as it helps profile the skill availability in the area;
- Assist trainers and educators to better meet current and future training and employment needs;
- Assist with strategies to better meet employer-identified labour market challenges

The NSWPB acknowledges the following organizations for the sponsorship and financial support of this initiative: Ministry of Training, Colleges and Universities; FedNor; Northern Ontario Heritage Fund Corporation; and the Thunder Bay Community Economic Development Commission.
